The Blohm & Voss BV 141 was a World War II German tactical reconnaissance aircraft. It is notable for its uncommon structural asymmetry. Although the Blohm & Voss BV 141 performed well, it was never ordered into full-scale production, for reasons that included the unavailability of the preferred engine and competition from another tactical reconnaissance aircraft, the Focke-Wulf Fw 189

Biological value (BV) is a measure of the proportion of absorbed protein from a food which becomes incorporated into the proteins of the organism's body. It captures how readily the digested protein can be used in protein synthesis in the cells of the organism. Proteins are the major source of nitrogen in food. BV assumes protein is the only source of nitrogen and measures the proportion of ...

2 The Bivariate Normal Distribution has a normal distribution. The reason is that if we have  $X = aU + bV$  and  $Y = cU + dV$  for some independent normal random variables  $U$  and  $V$ , then  $Z = s_1(aU + bV) + s_2(cU + dV) = (as_1 + cs_2)U + (bs_1 + ds_2)V$ . Thus,  $Z$  is the sum of the independent normal random variables  $(as_1 + cs_2)U$  and  $(bs_1 + ds_2)V$ , and is therefore normal. A very important property of jointly normal random ...
