

beyond the molecular frontier pdf

Space The Far Lands DESCRIPTION: Space is the final frontier, not because its exploration is the pinnacle of human endeavour -- it isn't -- but because it is vast. The third of three pages on Space (one of the Field Nodes comprising the subject tree of The Telson Spur), this page is a list of links to on-line resources on the future of space exploration (including space development, space ...

The Telson Spur: Field Nodes -- Space (3): The Frontier

Nanomedicine, Nanorobotics, Nanofactories, Molecular Assemblers and Machine-Phase Nanotechnology. Publications of Robert A. Freitas Jr.. Peer-Reviewed Papers, Patents, and Conference Publications

Homo (Latin *homo* "human being") is the genus that encompasses the extant species *Homo sapiens* (modern humans), plus several extinct species classified as either ancestral to or closely related to modern humans (depending on a species), most notably *Homo erectus* and *Homo neanderthalensis*. The genus is taken to emerge with the appearance of *Homo habilis*, just over two million years ago.

Conclusions. Single-center retrospective analysis suggests that IV arginine therapy yields significant therapeutic benefit with little risk in pediatric mitochondrial disease stroke subjects across a wide range of genetic etiologies beyond classical MELAS.

8-year retrospective analysis of intravenous arginine

The CRISPR-associated protein Cas12a (Cpf1), which has been repurposed for genome editing, possesses two distinct nuclease activities: endonuclease activity for processing its own guide RNAs and RNA-guided DNase activity for target DNA cleavage.

Structural Basis for Guide RNA Processing and Seed

Nanotechnology ("nanotech") is manipulation of matter on an atomic, molecular, and supramolecular scale. The earliest, widespread description of nanotechnology referred to the particular technological goal of precisely manipulating atoms and molecules for fabrication of macroscale products, also now referred to as molecular nanotechnology. A more generalized description of nanotechnology was ...

In collaborations that combine our expertise with that of industry, academia and other government laboratories, our scientists and engineers deliver research tools and solutions that enable access to affordable, environmentally clean energy, and reduce our dependence on foreign energy sources.

Energy Research and Development | Argonne National Laboratory

The Standards. Published in Science in 2015 (), the Transparency and Openness Promotion guidelines include eight modular standards, each with three levels of increasing stringency. Journals select which of the eight transparency standards they wish to implement and select a level of implementation for each.
