Organizational Structure: Influencing Factors and Impact on a Firm 231. Researchers have argued that if organizational theory is to be relevant to practitioners, emphasis should be

### **Organizational Structure: Influencing Factors and Impact**

Organizational theory consists of approaches to organizational analysis. Organizations are defined as social units of people that are structured and managed to meet a need, or to pursue collective goals. Theories of organizations include rational system perspective, division of labour, bureaucratic theory, and contingency theory. In a rational organization system, there are two significant ...

Consumer behaviour is the study of individuals, groups, or organizations and all the activities associated with the purchase, use and disposal of goods and services, including the consumer's emotional, mental and behavioural responses that precede or follow these activities. Consumer behaviour emerged in the 1940s and 50s as a distinct sub-discipline in the marketing area. In order to succeed ...
