A diversity index is a quantitative measure that reflects how many different types (such as species) there are

in a dataset (a community), and simultaneously takes into account how evenly the basic entities (such as individuals) are distributed among those types.. When diversity indices are used in ecology, the types of interest are usually species, but they can also be other categories, such ...

The term multiculturalism has a range of meanings within the contexts of sociology, of political philosophy, and of colloquial use. In sociology and in everyday usage, it is a synonym for "ethnic pluralism", with the two terms often used interchangeably, for example, a cultural pluralism in which various ethnic groups collaborate and enter into a dialogue with one another without having to ...
