The syllabus has been released under the guidelines of the agency and its authorities. The syllabus has been released online so the candidates can check the same from the official website or the link which [â€]

NEET 2019 Syllabus for Physics, Chemistry, Biology

In common usage, the word "human" generally refers to the only extant species of the genus Homo – anatomically and behaviorally modern Homo sapiens.. In scientific terms, the meanings of "hominid" and "hominin" have changed during the recent decades with advances in the discovery and study of the fossil ancestors of modern humans. The previously clear boundary between humans and apes has ...

Human - Wikipedia

Skin color is one of the most conspicuous ways in which humans vary and has been widely used to define human races. Here we present new evidence indicating that variations in skin color are adaptive, and are related to the regulation of ultraviolet (UV) radiation penetration in the integument and its direct and indirect effects on fitness.

In biology, tissue is a cellular organizational level between cells and a complete organ. A tissue is an ensemble of similar cells and their extracellular matrix from the same origin that together carry out a specific function. Organs are then formed by the functional grouping together of multiple tissues. define-: a group of cells that are similar in structure and/or work together to achieve a ...

Tissue (biology) - Wikipedia

A network of disorders and disease genes linked by known disorder – gene associations offers a platform to explore in a single graph-theoretic framework all known phenotype and disease gene associations, indicating the common genetic origin of many diseases. Genes associated with similar disorders show both higher likelihood of physical interactions between their products and higher expression ...

EPA's Integrated Risk Information System (IRIS) is a human health assessment program that evaluates information on health effects that may result from exposure to environmental contaminants.

Integrated Risk Information System | US EPA

If children were brought into the world by an act of pure reason alone, would the human race continue to exist? Would a man rather have so much sympathy with the coming generation, as to spare it the burden of existence?
