It only takes audience few seconds to distract off of a PowerPoint presentation. This obviously is the last thing you want as when you design a slide presentation, you certainly want to engage audience from top to bottom. This seems like a tricky job especially when you are short of time or beginner ...

Solar power is the conversion of energy from sunlight into electricity, either directly using photovoltaics (PV), indirectly using concentrated solar power, or a combination. Concentrated solar power systems use lenses or mirrors and tracking systems to focus a large area of sunlight into a small beam. Photovoltaic cells convert light into an electric current using the photovoltaic effect.
