Sustainable design (also called environmentally sustainable design, environmentally conscious design, etc.) is the philosophy of designing physical objects, the built environment, and services to comply with the principles of ecological sustainability.

### **Sustainable design - Wikipedia**

Urban design seeks to create sustainable urban environments with long-lasting structures, buildings and overall livability. Walkable urbanism is another approach to practice that is defined within the Charter of New Urbanism. It aims to reduce environmental impacts by altering the built environment to create smart cities that support sustainable transport.
