Benchmarking the Pharma Industry's Medical Affairs Functions

The pharmaceutical industry discovers, develops, produces, and markets drugs or pharmaceutical drugs for use as medications to be administered (or self-administered) to patients to cure them, vaccinate them, or alleviate a symptom. Pharmaceutical companies may deal in generic or brand medications and medical devices. They are subject to a variety of laws and regulations that govern the ...

Introduction. Big pharma has seen a significant change in operating model and footprint over the past couple of decades. Several studies have reviewed the industry's declining productivity challenges 1, 2, the transitioning of commercial models 3, 4 and the growth of emerging markets as key revenue contributors. In this article, we have reviewed the key trends that have impacted and ...

Get started. Without a doubt, the most difficult customer value model that a supplier will build is its first one. Indeed, gaining a comprehensive understanding of the value of a market offering ...

Business Marketing: Understand What Customers Value

Aberrant drug-related behavior. Aberrant drug-related behavior is a broad term that encompasses behaviors in drug administration that deviate from the prescribed therapeutic plan. 2,3 However, not all aberrant drug-related behaviors stem from abuse or addiction. A patient may be taking more medication than prescribed to obtain pain relief.

chapter 51 Human resources management and capacity development

Quackery, often synonymous with health fraud, is the promotion of fraudulent or ignorant medical practices. A quack is a "fraudulent or ignorant pretender to medical skill" or "a person who pretends, professionally or publicly, to have skill, knowledge, qualification or credentials they do not possess; a charlatan or snake oil salesman". The term quack is a clipped form of the archaic term ...
